

THE SOS PANIC BUTTON

SOS PANIC BUTTON APP

- › Effortlessly trigger an emergency response
- › Single touch
- › GPS tracking
- › Real-time updates
- › Automatic notifications to the emergency response team
- › Customisable to meet the specific needs of your organisation
- › Secure and reliable, with SSL encryption for all communications and data
- › Silent push notifications
- › Works anywhere in the world
- › Call back option for communication between the victim and response teams
- › Full case history and tracking details for later learning

ACTIVATING THE SOS PANIC BUTTON

- 1 Press the button inside the Crises Control app
- 2 Choose preferred call back method (call, text, both)
- 3 Tap OK to send the SOS alert with your location and preferred communication channels
